

Lanaudière Visitor Charter

Welcome to Lanaudière!

Before you head out to explore our magnificent forests, rivers and mountains, here are a few guidelines to make sure everything stays as beautiful after your visit as it was before.

You can do it all in Lanaudière, and if you respect our TRAD, we'll definitely want to have you back!

ARE YOU A GOOD:
VISITOR?
TRAVELLER?
CLEAN-UP HERO?

T Teach best practices and lead by example

Here, you can have fun in nature, enjoy incredible hikes or relax by the lake. You can even do nothing if you want—but leave nothing behind! Remember to pick up your waste (and others' too) and respect the environment. Help us keep these places clean.

R Respect the rules, be responsible

Whether it's a picnic area or a quiet beach, every place has its own rules. Like when you really want to make a campfire to roast marshmallows, but fires are prohibited because of dry conditions. We know it is frustrating, but by following the rules, you help preserve what you love. The marshmallows can wait... nature needs your respect.

A Adapt to the conditions, safety first

Whether you're on a sunny beach or a forest trail, adapting is key. Adjust your plan according to the weather or trail conditions. Taking the time to prepare is the best way to avoid getting lost.

D Discretion - Enjoy without disturbing

The beauty of Lanaudière is also its calm. Enjoy what surrounds you without disturbing nature's harmony. Stay discreet, especially if you come across wildlife. No need to shout or chase animals for the perfect photo. If you meet other visitors, give them space so they can enjoy the peace and quiet too.

You can do it all in Lanaudière. Without forgetting your good manners.

By signing this charter, you commit to enjoying Lanaudière responsibly, so everyone can continue to do the same for years to come.
